

TREASURERS NOTES

FOR THE FEAST OF 'ILM/KNOWLEDGE OCTOBER 16, 2019

For Consultation

“There is no justification for continuing to perpetuate structures, rules, and systems that manifestly fail to serve the interests of all peoples. The teachings of the Faith leave no room for doubt: there is an inherent moral dimension to the generation, distribution, and utilization of wealth and resources.”

— The Universal House of Justice, 1 March 2017

What are the moral dimensions of contributing to the Funds of the Faith?

National Fund

The Office of the Treasurer received this beautiful note with a contribution!

“Dear Office of the Treasury, after reading the recent Feast letter and hearing the impact the lack of funds is having on the vital work of our beloved Faith, our community consulted and agreed to send an additional contribution. We hope that this extra money will be one of many contributions that swiftly flow into the Fund to allow for the continued work of the Faith.”
